river resources designated by this Act.

(5) Wildfire management activities necessary to
protect public health and safety and private property
are fully allowable in wilderness areas designated by
this Act, and the Secretary of the Interior and the

deemed necessary to control or prevent fires.

(6) The wilderness and wild and scenic river re-
sources designated by this Act shall be included in
the National Wilderness Preservation System and
the National Wild and Scenic Rivers System, in
order to—

plants, animals, geologic structures and hydro-
logic features that represent the natural splen-
dor of California;

(C) protect and preserve historical and cul-
tural archeological sites associated with ancient
Indian cultures and the settlement of Cali-
fornia;

1 (D) protect and preserve areas that con-
 2 tinue to be used by Native American tribes for
 3 spiritual, cultural, or subsistence practices;

4 (E) protect watersheds, including those
 5 that play an essential role in providing munic-
 6 ipal and agricultural water supplies;

7 (F) provide opportunities for compatible
 8 outdoor recreation, including horseback riding
 9 on saddle and pack stock, hunting and fishing,
 10 hiking and camping, whitewater rafting, trail
 11 running, and excursions led by commercial out-
 12 fitters;

13 (G) retain and enhance opportunities for
 14 scientific research in pristine ecosystems; and

15 (H) promote the recovery of threatened
 16 and endangered species, including salmon and
 17 steelhead.
